PROFILE

Front-End Developer with 1 year of professional experience. Looking for a new challenge, I made a career change into web development and I am happiest in a role that pushes me to learn more. In the past year, I have developed web apps and static sites, creating a range of templates and themes.

EXPERIENCE

Junior Front End Developer at Giants & Gentlemen **January 2017 - Present**

Developing custom responsive WP themes for clients including Duke's Restaurant, One at Windermere, and Beaverbrook. Creating custom Wordpress websites, adding plugins, and updating content. Implementing Google Analytics goals and tracking. Deploying websites from development environment to new URL over FTP.

Junior Developer at Nuclear Media Inc. **April 2016- November 2016**

Front-end work on document and content management system software. Supporting senior developer building a range of websites, including wordpress and woocommerce based.

RECENT PROJECTS

Live in Prescott (G&G) - March 2017

Campaign refresh - developed Wordpress Theme with reusable templates for pages. Consulted with Art Director & accounts.

One At Windermere (G&G) - February 2017

Campaign refresh - single page website with jQuery drop down tabs. Developed Wordpress Theme based on Art Director PSDs.

Duke's Restaurant and Bar (G&G) - January 2017

New website build based on approved designs. Assisted senior developer in developing Wordpress Theme. Uploaded and edited content for all restaurant menu items.

Bayview Village Shops (Nuclear Media) - June-November 2016

Layouts and styling working from PSDs created by designer. Implemented map with google maps API. Used ReactJS to iterate through JSON mixins while database was under construction.
